Onsite Warranties and Service Contracts Available

Technical Support :

24/7 Online Support Helpdesk and Email Support
Fast Phone Based Technical Support
Local In-Store Service/Support By Our Technicians
Local In-Store Warranty Included

\$ 629.00

Tower Only

Recycle Your Old Computer System

Did you know that your old computer system contains many harmful chemicals such as lead and mercury? Custom Computers will either reuse, recycle and / or properly dispose of your old computer system instead of it ending up in the landfill.

Go Green

We do our part by using low power and high efficiency components as well as power management tuning that simply use less power and are made with less harmful waste during the manufacturing processes.

Productivity Focused

We don't load your new system up with all types of free and / or trial software which end up slowing the system down and causing conflicts. We prefer to load exactly what you need to complete your day to day computing tasks. Let us know what you plan to do and we will get you exactly what is required.

Customize Your System - Customize Your Service
